16	Tom Wildman	32.54	

**Guest**

1	Sam Barker	21.45	CR	Planet X
---	------------	-------	----	----------

The Rushden A6 version of the course, with headquarters at Chelveston, was used for this week's 10 mile event.

The wet weather experienced during the day cleared up into a nice evening allowing a number of riders to produce some good times.

A comment made a year ago for Liam Stones first ride on this course, that he had "worked hard to a very respectable first time of 25.37" Shows how much of an improvement he has made since then, with a 21.47 CR on the 11<sup>th</sup> May and a very good marker time this week which was only 6 seconds off the record and making him the fastest club rider.

George Fox has made even better improvements this year with an early season best of 23.47 on this course and now producing an excellent second place and 22.38.

Michael and James Berry have obviously been training hard, with both making big improvements on their previous best times, James taking the family title of fastest rider.

Sam Barker produced a pedigree ride with the fastest ride of the evening and a new course record by 2 seconds.

Next week's Wednesday evening event will be on the same course and with the same HQ, the race signing on finishing at 6.30pm for a race start 6.45pm.
